

OWENS BOTTLE-MAKING MACHINE MAY REVOLUTIONIZE GLASS INDUSTRY

Invention Will Be Used In New Glass Factory To Start In North Newark.

D. A. HAYES SEES MACHINE IN OPERATION

Former Newark Man, Now President of Glassblowers' National Association, Thinks Machine Will Cause Reorganization of the Union—Interview With Mr. Hayes.

MR. DENNIS A. HAYES, the former Newark glass blower, who for several years has been president of the Amalgamated Glass Blowers' Association, and who is one of the most prominent labor leaders in America, was in Toledo Saturday, while there saw for the first time the new Owens bottle making machine at work. The apparatus is described as—NOT A MACHINE, BUT A MIRACLE. It may do to the glass industry what the Mergenthaler Linotype machines did several years ago to the printing business, viz.: revolutionize it.

Last week the Newark Machine Bottle company was incorporated with a capital stock of \$100,000. It has been authoritatively announced that this company will operate the Owens bottle machines in its new plant here in Newark. The building is already erected and much of the machinery is installed. The Newark plant is to be similar to the new factory being completed at Kane, Penn. Mr. Hayes' impressions of the Owens machine and its probable effect upon

Toledo, O., May 8—"Our boys will have to consult and consider propositions altogether different than those heretofore considered."

This is the statement made by D. A. Hayes, of Philadelphia, formerly of Newark, Ohio, now president of the Amalgamated Glass Blowers' Association and vice president of the American Federation of Labor, after he had seen the Owens bottle machine at work Saturday. Mr. Hayes, in company with H. J. Mackinaw, Altoona, vice president of the organization, and the board of directors, consisting of Thomas Mc Dowell, Pittsburg; C. Anthis, Pittsburg; C. Parks, Vinceland, N. J.; P. E. Whelan, Montreal, and J. J. Dunn, New York, came to Toledo for the express purpose of inspecting the Owens bottle machine at work.

The officers of the association will meet this week with the owners for the purpose of deciding on a scale of wages for the coming year and before going into that session, the representatives of the unions wanted to know just what the machine is capable of doing.

Considerable time was spent in looking over the machine and carefully inspecting it and its work. At the close of the inspection, Mr. Hayes and his associates made a statement which, as stated above, means the revolutionizing of the bottle-blowing business as well as the practical reorganization of the labor unions made up of glass blowers.

Mr. Mackinaw, the vice president, corroborated the words of the president in saying that the machine is not a machine, but a miracle, and that it has put the glass blower up against a cold proposition.

In discussing his visit to Toledo, Mr. Hayes said: "While I am not in a position to talk, the machine was a surprise to me. It is not our purpose, as I take it, or the purpose of our organization to oppose the development of any mechanism, but I saw this machine today, and I feel, temporarily at least, that our boys have to consult and consider propositions altogether different than those heretofore considered."

"I do not know what our walkers will do, but I do not believe there will be any trouble between Mr. Libbey and ourselves. We will be given a definite time to rearrange business principles and while no limit was placed on this period, it will likely not be less than four or five years. This machine was indeed a surprise to me. I had heard of it, but had never seen it before to-day. I have known Mr. Owens for 20 years, but not until today did I know that he had perfected an invention which will practically put us on the defensive. I recognize the fact that

the progress and development of mechanism is going to revolutionize our business sooner or later, but I was not prepared for the development I saw today. The Mergenthaler machine has given to this and to every city a class of printers and compositors who stand higher in the scale of humanity than did the average printer 25 years ago. And I see in this Owens bottle machine a fact that we will have to meet. I speak now personally and without regard to my official position. Conditions in the industrial world are continually changing, but the most sanguine socialist could not have anticipated anything so radical as the innovation of the Owens bottle machine.

"We will leave here tomorrow afternoon for Pittsburg, with the view of meeting with the proprietors of the glass industry and rearranging rates for next year. We will probably be in session a week. We will, from what I have here observed, be obliged to meet new conditions and new circumstances. We have now 1,800 members, all of whom are expert glass blowers, but I can foresee a condition of affairs that will radically change the labor market, not only in regard to the bottle blowing industry, but through the entire industrial world. I know Mr. Owens twenty years ago, when he was working for a salary, as I am now. To-day he is probably worth a million dollars, and I, for one, am mighty glad of it. There is not a man in our line of business but who is devising some means for reducing the cost of labor."

"What do you think of the progress of socialism?" Mr. Hayes was asked.

"During the past six months I have been seriously considering the possibility of labor unionists and captains of industry getting together on a common basis. Universal co-operation is the chief aim, not only of labor unionism, but of socialism and while I don't want to see labor unions mix up in political affairs, I can now foresee and foretell that our only hopes for redemption lie to some extent in political progress and development, and I think that you will see during the next year or two a development along these lines as demonstrated in Cleveland and Chicago—a development that will surprise you."

Storm in Gallia County.
Gallipolis, O., May 8—A terrific wind storm passed over Gallia county last night, doing much damage. The Chambersburg Methodist church was unroofed.

At Padimah, England, a householder named Howarth possesses a unique wall paper. It is made up of the covers of 14,000 packets of cigarettes, all of one brand.

RUSSIANS RETIRE

Outposts Fall Back Before Advancing Japs—Operations Are Resumed in Manchuria.

St. Petersburg, May 8.—Extensive operations are in progress in Manchuria. A dispatch from Mukden says: Since April 29 the Japanese have advanced slowly and intermittently, pushing forward their columns successively from right to left under cover of a screen of cavalry and Chinese bandits. The advance has resulted in straightening the alignment of the opposing armies, Russian detachments which were far advanced on the flanks being forced to retire. Erdagou, to the westward, was occupied May 5, but under pressure by the Russians the Japanese later evacuated the place. On the left the Russian cavalry retired behind the Liao river, the Japanese occupying Palootun, Santingnan and Batzya. The village of Shalheizi, on the railroad north of Changtufu, has been occupied and burned by the Japanese. There was a sharp brush with Chinese bandits on the extreme Russian right. It is reported that the Japanese armies in the center have been reinforced. The force of Field Marshal Oyama's disposal, according to information recently received, is 348 battalions, or 390,000 men.

The Japanese are said to have armed 25,000 or 30,000 Chinese bandits with captured Russian rifles. The Chinese population has been drafted by the Japanese for road-making and trenching, and roads are being constructed to Sihminpu, Banchensee and Nanga Pass.

The report from Tsingtau that the Russian squadron is off Vanfong, which is an inlet containing the port of Honkohe, the Three Kings being rocks near the entrance of Vanfong bay, is held to confirm the Japanese assertion that Rojstevsky is still cruising in French waters. It is reported that, in response to Japan's second protest, France intimated that Rojstevsky had been ordered to leave Honkohe.

Still Guessing.
Tokyo, May 8.—Assuming that Vice Admiral Rojstevsky meditates a speedy junction of his squadron with Vice Admiral Nebogoff's division, it is believed here that the meeting of the ships may be expected by Tuesday, the speed of Nebogoff's division being only about seven knots an hour. These ships are believed to be in need of coal and stores, and their deficiencies in this respect will probably be supplied by Vice Admiral Rojstevsky at some friendly port after the two admirals effect a junction. The future movements of the Russian Pacific squadron is a matter of speculation here, although the delay of Rojstevsky on the Indo-China coast has raised doubts as to his purpose to move northward and risk an engagement at an early date. The Vladivostok torpedo-boat destroyers have not been reported, and it is believed they have returned to Vladivostok.

Demand Action Against France.
London, May 8.—Special dispatches from Tokyo to the London morning newspapers represent that the Japanese feeling is becoming highly inflamed at France's alleged failure to prevent ostentatious disregard for the principles of neutrality by the Russian Pacific squadron. The Tokyo Asahi bluntly describes the French assurances that they would preserve neutrality as falsehoods, and declares that Japan would be justified in bombarding French territory, and calls on the government to take vigorous action. Among Japanese officials it is asserted that France put off Japan by fair promises in order to give Rojstevsky time to effect a junction with Nebogoff's division.

Passed Fleet of Warships.
London, May 8.—A dispatch to the Daily Mail dated Labuan, British Borneo, May 6, says: "The steamer Chieng Mai reports that Friday night she passed a fleet of warships and other vessels off the Mantanani islands, northwest of Borneo. The warships apparently were coaling."

Will Boycott the French.
Tokyo, May 8.—The Japanese chambers of commerce are concerting measures to cease all commercial transactions with French citizens.

Russian Hospital Ship.
Sakon, Coochin China, May 8.—The Russian hospital ship Koshoma has arrived here. Its appearance is taken to indicate the approach of the Russian squadron commanded by Admiral Nebogoff. Sixteen Russian cargo vessels are living off Cape Saint Jacques.

Wants Pat Crowe.
Omaha, Neb., May 8.—Chief of Police Donahue has offered a personal reward of \$100 for the capture of Pat Crowe.

AT BUCKEYE LAKE

W. A. Priest and Edw. Stauch are Drowned

FIRST ACCIDENTS OF SEASON

Mr. Priest Lost His Life Saturday Afternoon and Stauch Drowned Sunday Morning.

Buckeye Lake Park, May 8.—Up to 2:30 this afternoon the bodies of the two men who were drowned here Saturday afternoon and Sunday morning, had not been recovered. The father of the Columbus man is now on the water endeavoring to locate his son's body.

All sorts of rumors are afloat here and in Newark regarding the accidents but it may be stated authoritatively that Priest fell out of the boat and was drowned before help could reach him.

The second death was that of Ed. Stauch or Strautz, who worked at the cash register factory in Columbus. He, with two other men was in a boat between Beech Island and Kader's early Sunday morning when in some way their boat was overturned. Two colored men heard their screams and hurried to the scene and succeeded in rescuing two of the trio but Stauch or Strautz sank out of sight. It is said that the latter had considerable money in his pocket.

W. A. Priest, whose home was on South Second street, just outside of the city limits, was drowned Saturday afternoon about 3:30 o'clock at Buckeye Lake. Mr. Priest was in company with two other men, Lew Harrington, and his brother-in-law, Frank Kissell. The three men were about 100 yards from shore, a short distance east of Buckeye Lake Park, when in some manner Priest fell into the water. He attempted to reach the boat, but owing to the fact that the waves were rather strong it was impossible to get the boat close enough to him, before he went down. A search was immediately begun for the body, and was kept up until late Sunday night, when the search was given up. Bodies rise in shallow water as soon as decomposition begins, which is usually about nine days, so that it is expected that the body will appear inside of that time, if not found before.

Mr. Priest resided with his parents, besides whom he leaves a wife and two children and two brothers and three sisters, who live in Newark. He was 31 years of age and quite well known in Newark. He was employed on the farm of Mr. George W. Havens, south of the city.

This was the first drowning of the season at the lake, and it is hoped will be a warning to all parties to use great care in boating.

Coroner Legge was called Monday morning to investigate the drowning.

EDWARD STAUCH DROWNS

Edward Stauch, a young man of 22, residing with his parents, Mr. and Mrs. Herman Stauch at 625 South La-zelle street, Columbus, was drowned at Buckeye Lake early Sunday morning. He and two companions put out to fish shortly after midnight and by 2 o'clock they were well out in the lake in deep water. Just how the accident occurred is not known, but the three were thrown into the water, two escaping, but with fatal consequences to young Stauch.

Stauch's father spent Sunday at the scene of the tragedy, assisting in the search, but to no avail. He returned to Columbus in the evening.

GLASS FACTORIES

Will Be Built by Union to Give Work to Men Who Are Thrown Out of Employment.

Marion, Ind. May 8.—According to a statement given out by T. W. Rowe of Toledo, O., president of the American Flint Glass Workers' union, the national organization will at once begin the erection of three lamp chimney factories which will give employment to 100 men thrown out of work by the action of the Melch-Evans Glass company in declaring an "open shop" and installing blowing machines. One of the factories, it is reported, will be located here, another in West Virginia and a third in Pennsylvania. The Marion factory will employ 500 men.

Soldier Is Murdered.
Chicago, May 8.—The body of Edward Rugey, private of the 27th U. S. Infantry, was found this morning in a ravine near Fort Sheridan with his head crushed and showing other wounds. He was on guard duty when Privates Chas. King and Robt. Lighter disappeared.

PRESIDENT

Has a Daylight Ride Through Colorado Monday

REACHES DENVER AT 5 O'CLOCK

Executive Entertained at Glenwood Springs Companions on His Three Weeks Hunting Trip.

Denver, Colo., May 8.—President Roosevelt and party left Glenwood Springs at 5 o'clock this morning on the way to Denver, which will be reached at 5:30 this evening. Brief stops were made at the cities of Pueblo and Colorado Springs. A daylight run was made to Denver in order to give the party an opportunity to enjoy the scenery. The train stopped 10 minutes at Hanging Bridge, one of the prettiest views on the Denver and Rio Grande railway.

Before quitting Glenwood Springs the president handsomely entertained at dinner his companions on his three weeks' hunt in the Rocky mountains. After the dinner he bade them an affectionate farewell and promised that all would live forever in his fondest memory. At the dinner were P. B. Stewart of Colorado Springs; Dr. Alexander Lamber, Guides Jake Bohrah, John Goff, Brick Wells, Jack Fry and G. M. Sprague, Courier Elmer Chapman and Secretary Loeb.

Excursionists came into Glenwood by every train, and rather than disappoint them Mr. Roosevelt stepped out on the second floor balcony of the hotel after luncheon and spoke briefly. He said: "I did not anticipate having the pleasure of meeting you. I am not going to try to make a speech to you. I shall merely say how greatly I am enjoying my visit to this beautiful state. I wish that in the last week up in the mountains there had been a little more weather like this. If there had been I think we would have gone about two bears better. Still, as we got 10, I do not think we have any right to complain. I am sure I need not tell you how much I have enjoyed my holiday here."

A souvenir of the hunt which Mr. Roosevelt will take to Washington is the dog "Skip." This animal is a small black and tan terrier and was the most active animal on the chase. The skins of the bears killed by the presidential party will be mounted.

RUDOLPH HANGED

Man Who Escaped From Missouri Jail Recaptured and Hanged at Union, Mo., Monday.

Union, Mo. May 8.—William Rudolph today expiated on the gallows his share in the murder of Pinkerton detective Schumaker on June 22, 1902, while heading a posse which attempted to capture Rudolph and his pal, George Collins, at the former's home near Staunton, Mo., for looting the Union bank on Christmas, 1902. Collins and Rudolph escaped to Hartford, Conn. Later they were captured and brought to St. Louis. Rudolph escaped by climbing to the roof of the jail in 1902. He was located in the Kansas penitentiary, having been sent up for blowing a safe. Collins was hanged March 25, 1904. Both were notorious criminals.

FOUGHT WITH FLOWERS

City of Mexico, May 8.—Fronts of houses on the principal avenues of the city were decorated with flowers in immense profusion and charming designs for the "Battle of Flowers." Hundreds of automobiles, carriages and bicycles took part in the floral parade that was held. Many of the vehicles were handsomely decorated. The occupants of carriages and people on the walks and balconies fought with flowers, and the air was filled with vari-colored petals. Vast quantities of flowers were used from the tablelands.

LABORERS AND ANIMALS INJURED

Krypton, Ind. May 8.—A heavy pole, suspended beneath one of the cars, becoming loose and catching in a switch frog, wrecked Lake Erie and Western special freight train carrying Gelbner Brothers' circus one-half mile east of this city. Eight laborers sleeping in a car, with three elephants and five camels, were seriously injured. The animals escaped with severe bruises. The train, which contained 20 cars, was running at the rate of 25 miles an hour. Four cars rolled down an embankment. None of the animals escaped.

BOARD OF TRADE IS LEGAL

Washington, May 8.—The Supreme court of the United States today upheld the legality of transactions for future delivery in the pits of the Chicago board of trade and declared that the board of trade had the right to set its quotations on grains, metals and other commodities. The board of trade is not allowed to discriminate and use them without consent of the board. The main point of defense was that the board of trade is the greatest of all the market makers and that sales made there are without the intention of delivery.

DR. WEST DIES OF FEVER

Washington, May 8.—Dr. Robert West, auditor of the Panama canal commission, died of yellow fever on the isthmus yesterday. He was a well known government official.

OVER TWENTY ACRES UNDER ROOF AT THE WEHRLE FOUNDRY ---THREE NEW BUILDINGS STARTED

New Warehouse, 425 x 112 Feet and Four Stories In Height, Is To Be Built—Two Other Smaller Structures Go Up At the Same Time.

Official announcement was made Monday afternoon that the Wehrle company will commence at once the construction of another mammoth warehouse to take care of the greatly increased output of finished product at the big plant in the West End. The new building will be 112 feet by 425 feet in size and will be four stories in height. The ground is being graded now and as soon as possible the building will be erected.

An official of the company stated Monday afternoon that a greater warehouse capacity is needed at the earliest possible moment and that the work on the new building will be rushed to completion.

In addition to the construction of the new warehouse, two other buildings or additions will be built at the same time. These two buildings will be L-shaped and will extend from one of the big 300 foot mounting shops to the new warehouse. The larger building will be 53 by 100 feet, the smaller one 32 by 60 feet, both being two stories in height.

All these buildings will be constructed of brick similar to the present buildings. The new buildings will necessitate the construction of a side track 2,200 feet in length. This work will also be done at once.

With the completion of the new buildings mentioned above, the company will have over 20 acres under roof in West Newark.

MURDERED GIRL

Identified by Mrs. Richard Kempter of Syracuse, N. Y., as Her Daughter, Mrs. Bouton.

Colorado Springs, Colo., May 8.—Mrs. Mada Kempter, wife of Richard Kempter of Syracuse, N. Y., has identified the remains of the Cutler mountain victim as her daughter, Mrs. Bessie Bouton, and has started with the remains for New York. The identification was made complete by the dental work upon the teeth and by a scar upon right side of the left forefinger, as well as by the hair. The mother charged that Milton Franklin Andrews attempted to murder the girl by poison while on the Pacific coast, and this convinces the police that if they can capture Andrews they will be able to establish a good case against him. The body of Bessie Bouton was found on Cutler mountain, south of this city, on the afternoon of Dec. 17 last. The woman had been shot in the head and every article of her clothing removed. The body had been placed face downward, and in an effort to prevent recognition gasoline had been poured over the remains and a fire built under the face. The extensive dental work was not destroyed, and it was this that led to the positive identification of the victim.

COMANCHE CHIEF

Says President Assured Him That Pasture Lands Would Remain Property of Indians Always.

Lawton, Okla., May 8.—In a speech delivered to a congregation of Comanche Indians and white people, Quanah Parker, Comanche chief, has stated that President Roosevelt assured him that the Kiowa-Comanche Indian pasture lands of Oklahoma would remain the property of the Indians for all time. Chief Parker asked that the lands be allotted and the president is said to have stated he would take up the matter with the commissioner of Indian affairs. The chief also asked that the Comanches be paid \$100 each annually to relieve them of debts.

CITED FOR CONTEMPT

New York, May 8.—The federal grand jury which has under consideration the workings of the tobacco trust this morning cited Edwin F. Hale, secretary of McAndrews & Forbes Co., one of the subsidiary concerns of the trust, for contempt of court in refusing to answer the questions of the investigators. Judge Lacombe gave him until Friday to decide if he would answer.

BOWEN'S CHARGES

Will Be Investigated by Roosevelt—Either He or Assistant Secretary Loomis Must Go.

New York, May 8.—United States Minister to Venezuela, Bowen, who had made grave charges against the official integrity of his superior, Francis B. Loomis, assistant secretary of state, arrived this morning from La Guayra. Bowen was ordered home to be present at the investigation which President Roosevelt will make into the charges. He declined to say anything regarding the controversy.

Washington, May 8.—Although Herbert W. Bowen, American minister to Venezuela, has made grave charges against the official integrity of his superior officer, Francis B. Loomis, assistant secretary of state, he will arrive in Washington by next Wednesday. Secretary Tamm will not personally conduct the investigation of the charges. President Roosevelt will arrive on Friday, and he will sit the facts and render a decision in accordance therewith. The President has been advised of all the developments of the situation.

Mr. Loomis has apparently been busy since called upon for a written reply to the charges, in formulating his defense. He has had not a few callers who have been in Venezuela and are familiar with conditions there. Secretary Tamm has also talked with many persons about the serious situation created by the Bowen charges.

Among all unprejudiced observers the opinion prevails that there can be no whitewashing in this affair, and that the man who is charged with such offenses and his accuser can no longer both remain in the government services.

J. W. ALEXANDER

Says Equitable Surplus is Held For Benefit of Policy Holders in the Company.

New York, May 8.—James W. Alexander, president of the Equitable Life Assurance society, made public a letter written by him to Edward A. Woods, manager of the society at Pittsburg, in which he asserts that the surplus of the society is held for the exclusive benefit of its policyholders and not the holders of the stock. Mr. Alexander also takes occasion in the letter to deny the rumors that he will resign. The letter was written in reply to a request from Mr. Woods for confirmation of certain official statements made by the Equitable society regarding "the mutual plan of its business and the exclusive ownership of the policyholders of the surplus."

DRAW COLOR LINE

San Francisco, May 8.—The board of education has taken a determined stand against the admission of Chinese and Japanese pupils to schools where white children are being educated. The board unanimously adopted resolutions declaring itself opposed to the promiscuous association of white and Mongolian pupils, and declaring its policy to favor in future the establishment of separate schools for Chinese and Japanese pupils.

A ten per cent tax on theatre tickets in France yields about 2,000,000 pounds sterling a year. The money is devoted to the maintenance of the poor.

NEW SUBSCRIBERS FOR TELEPHONES

NAMES OF PEOPLE WHO HAVE
RECENTLY INSTALLED
INSTRUMENTS.

Cut Out the List of Names For Future
Use—Company Has Nearly
2,000 Subscribers.

Manager C. E. Hollander of the
Newark Independent Telephone com-
pany, furnishes the following list of
new subscribers.

Telephone-users will find it con-
venient to clip this column and attach it
to the list of names in the telephone
directory for future reference.

The Independent company is now
not far from the 2,000 mark. About
two years ago this company had 600
subscribers.

SURETY FOR NAN

Retired Pawnbroker is Announced as
the Bondsman for the Florida
Girl, Nan Patterson.

New York, May 8.—Abraham Levy,
chief counsel for Nan Patterson, held
a conference with Assistant District
Attorney Rand this morning for the
purpose of having Miss Patterson re-
leased on a nominal bail or on her
own recognizance. Rand told Levy
that he would be unable to make a de-
finite settlement of the intentions of
the prosecuting office until he had
talked the matter over with district at-
torney Jerome, who will be in the city
this afternoon.

Edward J. Sparenberg, a millionaire
pawnbroker, is ready to go on Miss
Patterson's bond for any amount. He
is an old friend of Levy's. Levy said
this morning regarding the prospects
of Miss Patterson's release:

"Nan will be out of the Tombs and
started for Washington by Wednesday
at the latest. It may be today, Tues-
day or Wednesday. I will have no mo-
tions to make. That is up to District
Attorney Jerome now.

"If Nan is not released on her own
recognizance she will certainly be ad-
mitted to bail and the bond is ready.
Mr. Sparenberg is a friend of mine and
is not looking for any notoriety. He
does not know Miss Patterson."

Lawyer Limberger, counsel for J.
Morgan Smith, appeared before Justice
Coster this morning and submitted a
motion for the release of the Smiths.
Assistant District Attorney Perkins at
the same time submitted a motion ask-
ing that the Smiths be held until it
could be determined whether the dis-
trict attorney desired to re-indict them.
Justice Foster took both motions un-
der advisement.

A long-haired young man, describ-
ing himself as a playwright, appeared
at the Tombs today to submit the man-
uscript of a play in which he desires
to star Miss Patterson. The play is a
thriller and is entitled, "Outrage Law,
or Justice at Last."

The play has three acts and five
scenes. In one of the scenes Book-
maker Young is seen to shoot himself.
Nan, after being tried, is freed and
goes back to Washington, where she
marries a former schoolmate, now an
enormous wealthy merchant. Nan
goes west with her husband and lives
happily ever afterward, doing good to
the frail members of her sisterhood.

It was announced later that Levy
and District Attorney Jerome will meet
at 4 o'clock this afternoon to discuss
the case. The city's chamberlain's office
closes at 4 o'clock and there is little
likelihood that Miss Patterson will be
set free today.

Miss Patterson seemed to be per-
fectly recovered today from the strain
of her recent trial. Her morning mail
consisted of 69 letters, 25 newspapers
and 19 postal cards.

"I shall have to employ a private
secretary," she said, laughingly, "if
this keeps up."

New York, May 8.—Counsel for Nan
Patterson will renew their efforts to
have the girl admitted to bail. Dis-
trict Attorney Jerome, who has been
absent from the city since the third
trial of Miss Patterson, is expected to
be at his office this afternoon, and will
be asked to take the case up immedi-
ately. If the district attorney will not
agree to the release of the young
woman on her own recognizance he
will be asked to fix the amount of bail
at a nominal sum. Failing to obtain a
compliance with the request for bail,
the attorneys say they will make ap-
plication to the court for a writ of
habeas corpus. Miss Patterson is
bright and cheerful.

It is understood that the bondsman,
whom Miss Patterson's lawyers have
announced is ready to act as surety
for her in any reasonable amount, is
Edward J. Sparenberg, a retired pawn-
broker of this city. Mr. Sparenberg is
an intimate friend of the Patterson
girls' attorneys, and it was in this
way his interest was aroused in her
case.

CLARENCE DAVIS

Young Hebron Man Smashed Village
Jail and Made His Escape Monday
Afternoon.

Hebron, O., May 8.—Clarence Davis,
who took on a load of booze Sunday,
went home at night and drove his wife,
a former Newark woman, whom he
married a few months ago, out of the
house and when his mother-in-law
came this morning to take the house-
hold goods he threw her out of the
house. Later Davis was arrested and
put in the village prison, but he broke
out the furniture, knocked down the
door and made his escape. Newark
officers came up this afternoon to help
recapture him. While Davis was wait-
ing down the jail the town marshal
was enjoying life under a shade tree
down town and didn't hear of the es-
cape till the man had disappeared.

The word "mikado" signifies some-
thing like "the sacred gate" or "the
sublime porte."

Fourteen large houses in Blooms-
bury, London, have been demolished
for the British Museum extension.

More than one-third of all the Ameri-
can export trade has been in the two
great crops, cotton and wheat.

Pistol Champion.

Policeman Sidney Sears of St.
Louis Wins National
Contest.

A St. Louis police officer has been
declared the champion revolver shot
of America, and that by so wide a
margin as to leave no doubt as to his
right to the title.

Sidney E. Sears, a patrolman from
the central district, whose headquar-
ters are at the Chestnut street (St.
Louis) police station, is the man who
has just been awarded the highest hon-
or the United States Revolver associa-
tion can confer.

Mr. J. B. Crabtree of Springfield,
Mass., secretary of the United States

SIDNEY E. SEARS, NEW REVOLVER CHAM-
PION.

Revolver association, recently announ-
ced the result of the national indoor
championship shoot, which was con-
ducted simultaneously at New York,
Chicago, Pinehurst, N. C.; St. Louis,
Pine Bluff, Ark., and San Francisco.

Sears won with a score of 461.
Dr. R. H. Sayre of New York was
second, with 438, and William G. King
of Chicago third, with 431.

Sears has been on the St. Louis police
force for over fifteen years and bears
a high reputation in the department.
He is the holder of the commissioner's
medal, carrying with it the title of
champion of the department, and has
won many medals and honors in re-
volver shoots throughout the country.

"The easy manner in which he beat
the other competitors in the shoot for
which the figures have just been an-
nounced has convinced the officer and
his friends that he would stand an ex-
cellent chance to win an international
title, and he will probably enter some
of the foreign tournaments the coming
season."

Sears, who is modest and unassuming,
lives with his family at 1322 Bay-
ard avenue, St. Louis.

M'COY'S NEW "CHAMP."

Says Pitcher Frank Smith Is the
Real Thing.

"I have discovered the next champion
of the world and the man that will
eventually own the laurels now held
by Jeffries."

This is the gist of a talk given out by
the irrepressible Dick McCoy in speak-
ing of his new pugilistic find, Pitcher
Frank Smith of the Chicago American
league club.

"I believe that Smith could give Jeff-
ries a hard fight now and without any
further training, and in a year he can
lick Jeff," said McCoy after a ten min-
ute bout with the baseball player.

"Smith is the most remarkable man
I have ever come across in my career.
He is a natural born pugilist and has
only to be taught the tricks of the ring
to make him a champion. I put the
gloves on him, and he surprised me.
He is the fastest big man that I
have ever faced and has a wallop that
has Jeffries' faded. In my bout with
him I thought he would put me out. I
had to use all my science to stall him
off, and if he had connected with my
chin there is no doubt in my mind that
I would have been a subject for the
referee's count of the fatal number."

"Let me take this fellow and train
him for a year and he will beat Jeffries
just as sure as the sun sets."

"The Great Galeotto."

Hart Conway, head of the dramatic
department of the Chicago Musical col-
lege, will in the near future present
Jose Echegaray's "The Great Galeot-
to."

"The Great Galeotto" is published in
an excellent English translation, which
may be obtained from London through
any bookseller. The volume contains
two other plays by Echegaray and a
comprehensive study of his work.

Jap Ball Team on the Way.

A cable message has been received in
Frisco announcing that the Waseda
university baseball team of Tokyo has
sailed for this country. Fred Merrif-
ield, a University of Chicago athlete
and baseball player, is the Jap coach.

McDowell Purse For Trotters.

The \$3,000 McDowell purse at Lex-
ington next fall will be for 2,000 trot-
ters. As an event for four-year-olds it
has not a success.

CONSPIRACY CHARGES

Both Parties to Strike Seek an Investi-
gation—Willing to Assist Mayor
Dunne.

Chicago, May 8.—The situation is
quiet on this the thirtieth day of the
teamsters' strike. Mayor Dunne has
appointed a commission to investigate
the charges of conspiracy made against
the employers by the labor men and
counter charges made by the em-
ployees. About 1200 wagons were sent
out today and the number of guards
was lessened. Police say strikebreak-
ers have deserted by the hundreds.

Emil Kimber, a union teamster, was
shot and badly wounded today by an
unknown man. John and Richard
Fruen, brothers, are in a hospital with
their abdomens horribly slashed. Both
men probably will die.

Before Federal Judge Kohlsaat this
morning argument was heard in the
cases of persons cited in the injunction
proceedings inaugurated by the Em-
ployers' Peanning company. In behalf
of the defendants, it was argued that
the federal court had no jurisdiction.

Chicago, May 8.—The Employers'
association, through its chief counsel,
Levy Mayer, announced that it would
do everything in its power to assist the
committee appointed by Mayor Dunne
to investigate the causes of the strike.
Charges of conspiracy by both sides is
the reason given by Mayor Dunne for
the appointment of the investigating
committee. President Shea of the
teamsters' union also said that the
unionists would be found ready to assist
the mayor's committee in every man-
ner possible to bring to light all the
facts concerning the difficulty.

The Chicago Federation of Labor
decided to withdraw labor union funds
from the banks which subscribed to
the \$50,000 fund to aid the employers
and to urge individual members to do
likewise, and to attempt to secure the
indictment of the officials of the Em-
ployers' association on a charge of
conspiracy against certain team own-
ers.

It is believed here this week will
either bring an end to the teamsters'
strike in Chicago or else one of the
worst industrial upheavals in the his-
tory of the city. The present trouble,
which has lasted for two weeks, has
reached a point where the business
men involved in the difficulty appear
to have gained a decided advantage,
and the teamsters appear now to be
in a position where they must either
yield or decide to extend the strike by
calling out thousands of other work-
men engaged in affiliated unions. The
business men have made preparations
which, if carried out successfully,
would indicate that the teamsters will
be compelled to surrender or call on
the other unions for assistance. The
Chicago Federation of Labor, the cen-
tral body for all the unions in the city,
met but took no action looking to an
extension of the trouble. A great deal
of incendiary talk was indulged in,
but nothing definite was done with
the exception of the passage of resolu-
tions charging the Employers' associa-
tion with conspiracy, and asking that
State's Attorney Healy start an investi-
gation of their business methods.

Arrangements have been made by
every business house involved in the
trouble to at least double its force of
nonunion men. All preparations have
been made to start out 1,000 wagons
manned by nonunion men. Each of
these wagons will be guarded by de-
puty sheriffs or policemen, and each
one of these men has received explicit
instructions from their superior offi-
cers to prevent disturbances of any
kind whatever in the streets, such as
were witnessed during last week. The
instructions to each of the deputy
sheriffs and each of the policemen are
to use every peaceable means in their
power to quiet the rioters, but if this
means proves unsuccessful, to use
their revolvers and use them to kill.
It is not believed that the guardians
of the wagons will be called upon to
use such strenuous measures to insure
the delivery of merchandise by the
nonunion drivers, as the strikers and
their friends show little inclination to
clash with the deputy sheriffs or the
policemen.

The Tenor's Revenge.

In a comic opera company which
played in Washington once there was
a prima donna who managed, in one
way or another, to offend the tenor.
Now, the prima donna's great song
was sung with only herself and the
tenor on the stage. On the night when
he decided that his hour for revenge
had come he strolled down to the foot-
lights as the lady began her song, gas-
ped out into the audience and yawned
caveringly. A yawn is the most in-
fectious thing in the world. Smallpox
isn't a circumstance compared to it.
By the end of the first verse the prima
donna was looking out over lowered
footlights at a packed house, and the
packed house was one solid yawn. The
sard bag and the ax are not man's only
weapons of vengeance.—Washington
Post.

The modern bullet will pierce the
carcasses of three horses in succession
at 50 yards, of four at half the distance
or kill a man after passing through the
trunk of a thick tree.

No less than 26 electric mountain
railways are now under construction
in Switzerland.

A movement is spreading through
Wales for the recognition of St. David's
day as a public holiday.

Drought in the Hawaiian Islands is
causing serious loss to the sugar plant-
ers. In some districts water for house-
hold purposes is being sold by the gal-
lon.

RHEUMATISM ROBS LIFE OF PLEASURE

Rheumatism does more than any other dis-
ease to rob life of pleasure and comfort. It is so painful and far-reaching in
its effects on the system that those afflicted with it find themselves utterly
unable to enjoy bodily comfort or any of the pleasures of life. Some are
bound hand and foot and suffer constantly with excruciating pain, swollen,
stiff joints and muscles, and often distorted, crooked
limbs, while others have
intervals of freedom, during
which they live in constant
fear and dread of the next
attack, when, at the least ex-
posure to damp weather, or
slight irregularity of any
kind, the disease will return.

The cause of Rheumatism is a sour, acid condition of the blood, produced
by food lying undigested in the stomach, poor bowel action, weak kidneys
and a general sluggish condition of the system. External applications, such
as liniments, oils, plasters, etc., do not reach the cause and can only give tem-
porary relief. The blood must be cleansed and purified before a cure can be had. S. S. S. attacks the
disease in the right way—it neutralizes the poison
and filters out every particle of it from the blood,
stimulates the sluggish organs and clears the sys-
tem of all foreign matter. It cures the disease permanently and safely
because it contains no harmful minerals to derange the stomach and diges-
tion. Book on Rheumatism and any advice you wish, without charge.

SSS

I had been troubled with Rheumatism for two
years, had been under the treatment of phys-
icians, and tried everything recommended to
me, but all to no avail. My knee and elbow joints
were so stiff that I could not use them. I was un-
able to do my household work, and was truly in a
pitiable condition. S. S. S. cured me after using it
for awhile, and I unhesitatingly give it the
credit it so much deserves.

ANNOUNCEMENTS

**Of Candidates to Be Voted For at the
Coming Democratic Primary
Election.**

The following gentlemen whose
names appear in this column under
this heading, announce themselves as
candidates for the offices designated
respectively, subject to the decision of
the Democracy of Licking county at
the coming primary election:

Representative.
WILLIAM A. ASHBROOK.

County Treasurer.
C. L. V. HOLTZ.

Prosecuting Attorney.
JAMES R. FITZGIBBON.

Probate Judge.
CHAS. H. FOLLETT.
WALDO TAYLOR.
T. B. FULTON.
E. M. P. BRISTER.

County Commissioner.
J. WILLIS FULTON, Newark, Tp.
JAMES M. CRAWFORD.
D. H. PIGG.
GEORGE MILLER (Granville tp.)
A. H. JONES (Bert Jones).

Infirmary Director.
SHELDON B. JEWETT.
W. H. LUCAS.
PETER W. BRUBAKER.

Coroner.
DR. L. L. MARRIOTT.
DR. W. E. WYHARCH, (Newark).

Come to the May Meeting.

The annual May Meeting of the
Licking County Democracy has been
set for Saturday, May 20, and it is a
matter of the utmost importance that
every Democrat in Licking county
should attend. Corn planting will be
largely over by that time, and every
Democrat in the county should set
apart that one day for the service of
his party. Matters of interest will
come up for discussion that every
Democrat should take part in. Al-
ready the reaction is setting in from
the Republican landslide of last year,
and every indication is favorable for
a sweeping Democratic victory in Old
Licking this fall. Come out Saturday,
May 20, to the May meeting, fellow
Democrats and start the ball rolling
to redeem the county and State at
next fall's election.

The United Ohio Democracy.

The fact that the Ohio Democrats
are united and harmonious and up to
this time absolutely free from the
factional dissensions that have for
years made its fight for better govern-
ment in Ohio futile and impotent, can-
not be but charming to the rank and
file of the party.

This condition of the party can only
be objectionable to the bosses of the
Republican gang of grafters and tax-
eaters, and such other persons as are
enemies of Democracy, under some dis-
guise or other, and who are willing to
sacrifice the party of the people for a
consideration, for revenge or for some
sinister or selfish end.

We may expect our open enemies to
try to sow tares in the Democratic
wheat field. But the Republican lead-
ers cannot accomplish their design. It
is not our open Republican enemies
who are to be feared. They can make
no impression upon the Democratic
lines, and cannot deceive any consid-
erable number of the Democracy to
run after issues and pretended issues
that have no relation whatever to the
real issues at stake in the coming cam-
paign, and which have already been
so tersely summed up in these words:
Honesty in office;
Economy in expenditures;
An end to grafting;
Of the three offenses against good

Dyspeptics Quick relief from
Stomach, Heartburn,
Nausea, and all other
disorders of indigestion and dyspepsia. Sugar-
coated tablets, 10c. or 25c. Druggists or by mail.
Cataracts Give instant relief in
all cases of Catarrh, inflammation, and
all other disorders of the eye. Best remedy
ever tried. 50c. per bottle. Dr. J. C. Lowell, Mass.
It Made by Hood's Good.

government the Republican bosses
stand indicted on their own record.
These bosses must be turned out of
power before honesty and economy can
be restored as a part of the govern-
mental policy.

With these restored all other re-
forms and improvements are possible.
But Honesty, Economy, and an end
to Grafting must come first.

Whosoever (no matter to what he
pretends) tries to precipitate personal
or factional quarrels into the ranks
of the now united party, is the enemy
of Democracy, and more dangerous to
its future than even George B. Cox,
the proprietor and personification of
the Republican machine.

It was the Democratic press and its
unselfish labors for months which re-
stored the Democracy to its normal
condition and estate. Surely that
united press will maintain its unity
and in so doing thwart the open and
the secret foes of the Democracy, and
make it possible to rescue this great
commonwealth from the hands of the
Cincinnati boss and his fellow spoil-
ers.

The Ohio Democracy is calling for
leaders, for strong, tall, patriotic lead-
ers, crowned with the sunshine of un-
selfish manhood. Not for Bosses:
They are too plentiful now.
"No churl, no boss, no clown,
Shall pull the people's standard
down."

DOCTOR GLADDEN

Distributes Copies of His Address—
Battle of Business Men the One
He is Fighting.

Columbus, O. May 8.—Rev. Dr. Wash-
ington Gladden, pastor of the First
Congregational church on Sunday dis-
tributed among the members of his
congregation copies of his recent ad-
dress to the Congregational ministers
at Boston, protesting against the ac-
ceptance of Mr. Rockefeller's gift to the
American Board of Missions and com-
mented thereon. He said:
"I think you know your minister
well enough to know that he does not
make rash or reckless statements in
such matters. Some of you have said
you could not judge in the matter be-
cause you had no knowledge of the
facts. I think I have given you facts
enough to justify a judgment. But
there are volumes more."

Further he said:
"If this protest has any significance
it is in its determination to put the
stamp of approval upon lawful and
honorable business, and to put the
stamp of disapproval upon lawless and
dishonorable business. It is a declara-
tion that the time has come when the
lines must be drawn by business men
themselves between trade and commer-
cial pravity. I think that nobody in this
country is so much interested in hav-
ing this line drawn as the honest busi-
ness man. It is their battle we are
fighting. There is a tendency to lump
them all together—to say that they are
all alike. If you make the people of
this country believe that, your good
business and your bad business will go
down together in a common condemna-
tion and ruin."

ARCHITECTS

Wilbur T. Mills and V. Emile Thebaud
Are Opening Office in the Hibbert
& Schaus Building.

Architects Wilbur T. Mills of Colum-
bus, and V. Emile Thebaud, formerly
of Buffalo, are opening an office here
in the Hibbert & Schaus building. Mr.
Mills' work is well known in Newark,
and Mr. Thebaud is well known as an
artist, throughout the east. Mr. The-
baud has removed his family to this
city and is living on North Fifth street.
He expects to make Newark his home
and is at present manager of the new
office.

MODERN MACCABEE DANCE.
Bauner Tent, No. 1277, K. O. T. M.
M. will give an informal dance Mon-
day evening, May 8, in A. I. U. hall.
Admission 25 cents. Ladies free. In-
vitations must be presented at the
door. 5-632t

FELL TWELVE FEET

Barney Williams, Shipping Clerk at
Sprague's, Hurt Monday Morning
at the Weiant Bakery.

Barney Williams, a shipping clerk
for George B. Sprague, the wholesale
grocer, met with a painful and serious
accident on Monday morning. He had
gone to the Weiant bakery for a barrel
of crackers. When he called, Fred Es-
ton, a driver in the employ of Mr. Wei-
ant, was engaged in unloading a wagon
at the rear of the store. He had just
set a barrel of candy inside the door,
when Williams who was in a big hurry,
and thinking to aid Es-ton, caught hold
of the barrel of candy and commenced
rolling it into the room. He failed to
notice that the elevator was raised and
stepped backwards into the opening,
dislocating one of his shoulders. Dr.
Charles H. Stimson attended to his in-
jury. No fault is attached to any one
connected with the Weiant bakery.

GRANVILLE NEWS

Granville, O., May 8.—The Senior
girls will, this year, start the custom
of giving class plays. The play to be
given this year will be W. S. Gilbert's
mythological comedy, "Pygmalion and
Galatea," founded on the old myth of
that name. There is a cast of nine
characters. The entire cast will be
produced under the direction of Miss
Eckert, and will be given in Recital
Hall on the evening of June 10. It
follows the classic model in its divi-
sion into three acts and in the time
action which is one day. The Senior
girls are to be congratulated upon their
enterprise and upon their at-
tempt to add one more to the only too
few school customs and traditions.

The regular Enterprise meeting was
held in Recital Hall, Friday evening,
with the following program:

The Old Days of Enterprise, Myra
Pellens.
Enterprise Ideals, Ruth Drake.
Organ Solo, Julia Pickard.
The Gulf of Freshman A, Beulah
Rector.

Original Story, Julia Pickard.
The regular meeting for next week
will be held Thursday evening at 6:30
in the gymnasium.

The regular Philo meeting was held
in the gymnasium Friday. The fol-
lowing program was presented:
Music, Russian Hymn, Ruth Mc-
Kitben.
Sketch of Tolstoi's Life, Ivy McNeil.
Character of Tolstoi's Works, Anna
Sorenson.

Solo, Faith Pomeroy.
Public Life of Tolstoi, Minnie Bates.
Extracts from Tolstoi, Mary Fergu-
son.

Music, Hattie Rogers.

University of West Virginia will
contest for honors with Denison Tues-
day afternoon on Beaver Field. Quite
a number of Newark people will at-
tend the game.

The college work of the Denison
Seniors closes Friday, May 12.

The members of Irving Literary So-
ciety will give a banquet to their
friends on Saturday May 27.

The members of the Junior class of
Denison will give a reception to the
faculty and seniors of the college on
Friday evening in Cleveland Hall,
from 8 to 10 o'clock.

Crayton Black and daughter of Co-
lumbus were in Granville Sunday.

Frank Schumpf, wife and family of
Newark, spent Sunday with Mr. and
Mrs. William Ackley at their home
on West Broadway.

The many friends of Miss Bessie
Spriger, now of Spokane, Washington,
will be pleased to know that she is
rapidly recovering at St. Luke's hos-
pital.

EXCAVATING

For Girls' Gymnasium at Granville—
Building Will be Three Stories
30x47 Feet.

Granville, May 8.—The work of ex-
cavating for the girls' new gymnasium
is rapidly progressing. The contract
is held by Mr. Handshy of Zanesville,
who is also putting up the new dormi-
tory. The brick and sand stone work
will be done by Dunzweiler Bros. of
Zanesville. The gymnasium will be
three stories, 80 x 47 feet, with a two
story bay on the west end 24 feet
wide and 15 feet deep. The first floor
is taken up by the plunge (50 x 18
feet), the locker and dressing room
(66 x 20 feet), shower room, lavatory,
and the entrance hall. The plunge
room (57 x 23 feet), will have a tiled
floor and glazed brick walls. The rest
of the first floor will be of cement.
There will be 12 showers. In the locker
and dressing room are 14 small
compartments for dressing rooms. The
plunge is in the northeast corner, the
locker room the southeast, the show-
ers the northwest, and the lavatory
in the southwest corner facing south.
On the second floor the west bay will
be taken up by the reception lobby.
At the top of the stairs is a lobby
opening into the reception room and
the physical director's room which
will occupy the northwest corner. The
third floor is taken up by the running
track and the visitors' gallery. The
track will be five feet wide and of the
same make as the one in Cleveland
Hall. It is hoped to have the building
completed during the fall semester.

Going out of carpet business. Entire
stock being sold out at cost.
THE POWERS-MILLER CO.

NEWARK MAN

Who Was Endeavoring to Hire Factory
Hands at Lancaster Arrested But
Later Was Discharged.

Lancaster, May 8.—A man named
Galligan, agent of a Newark factory,
was in the city last week looking for
men to work at Newark and he pres-
ented his mission more earnestly with em-
ployees of the Ohio Flint Glass com-
pany than the manager thought proper,
and within the bounds of law, so com-
plaint was made to the police and his
arrest was ordered.

He was arrested, but after investiga-
tion Galligan was released without any
charge having been filed against him,
but two of the employees named Riggs,
who had been enticed away from the
Flint by his promises and who are not
the brightest fellows in the world, were
taken by their father, Jefferson Riggs,

before the Probate court and an appli-
cation filed for the appointment of a
guardian on the grounds that they are
habitual drunkards. They are 27 and
28 years old respectively.

By order of the court, Harry Barrett
of the Ohio Flint Glass factory was
appointed their guardian and his bond
was fixed at \$100.

**Chamberlain's Cough Remedy the Very
Best.**

"I have been using Chamberlain's
Cough Remedy and want to say it is
the best cough medicine I have ever
taken," says Geo. L. Chubb, a mer-
chant of Harlan, Mich. There is no
question about its being the best, as
it will cure a cough or cold in less time
than any other treatment. It should
always be kept in the house ready for
instant use, for a cold can be cured in
much less time when promptly treated.
For sale by all druggists.

NOTICE.

Do you want a choice building lot in
the West End?

The Stump and Cassingham addi-
tion has been accepted and the lots
are now on sale. Almost every one a
beautiful building lot and located on
Day avenue and Neal avenue, a sec-
tion that lies between North Williams
street and Linden avenue, and is des-
tined to become the most beautiful
residence district of the city. It is
convenient to every factory in the
West End, and lots can be bought on
most easy terms. Several prominent
real estate agents of this city have
plats in this addition, as well as C. E.
Cochran, the agent for Stump and
Cassingham, and who resides at 666
West Main street, adjoining the addi-
tion. Take cars to Williams street.

G. A. R. ENCAMPMENT

Washington Court House People Are
Preparing to Entertain All Vis-
itors There on June 6-9.

The thirty-ninth annual state en-
campment of the G. A. R., department
of Ohio, will be held at Washington C.
H., Ohio, June 6, 7, 8 and 9, 1905. Prepa-
rations are being made on an exten-
sive scale to entertain the thousands
of old war veterans of the Grand Army
and the auxiliary organizations and
their friends who will come together
on the above dates.

The attractions at the encampment
this year will be far above the average
and there will be something interest-
ing doing every hour of each day. Emi-
nent statesmen of all parties will be
present. The two United States Sena-
tors of Ohio, the Governor and his
staff and General W. W. Blackman of
Boston, commander-in-chief of the G.
A. R. of the United States, and his
staff will attend the encampment.

On Wednesday afternoon June 7, the
flower parade will take place and on
Thursday, June 8, the G. A. R. parade
will be the feature. It will be headed
by a veteran fif and drum corps of 200
pieces, the largest martial band ever
organized in America. The famous
Jewell Juvenile drum corps of 82
pieces and a score of other drum corps
and brass bands will be in line.

A grand chorus of 500 trained voices
with orchestra will give numerous
open air concerts and there will be
band concerts continuously. There
will be campfires and addresses by fa-
mous and distinguished men. In addi-
tion to amusement features of various
kinds to entertain the crowds.

The railroads have all made a rate of
one cent per mile. The pleasant
homes of Washington C. H. will be
thrown open to the visitors.

FLAT FAILURE

Is the W. C. T. U., Says Dowie, Who
Also Cries Out Against the
Y. M. C. A.

Chicago, May 8.—"There is not a
more flat failure in the religious world
today than the Women's Christian
Temperance Union," shouted John Al-
exander Dowie, the first Apostle, in his
sermon Sunday. "It is a curse to the
country, for it accomplishes nothing,
and breaks up homes. I am for the
temperance cause, but I do not think
it should be managed by a lot of med-
dling old maids."

"The Young Men's Christian Associ-
ation is also a hollow mockery and a
curse. It drags young men down be-
cause it gets them together at night,
subject to the temptations of the great
cities and they cannot help getting in-
to mischief without the restraining in-
fluence of sister or mother."

DISEASED TOOTH

Causes Death of Miss Lena Lanning
Daughter of John Lanning, of
Dresden.

A diseased tooth caused the death of
Miss Lena Lanning of Dresden Satur-
day. During the past six weeks she
has suffered three operations and it
was only last week she returned to her
home from Zanesville to rest for a few
days, after which she was to take ad-
vantage of the one last chance to save
her life. Friday this operation was
performed, the entire upper jaw was
removed and a portion of the nose on
the right side together with a large
portion of the ethmoid bone.

The disease in the ethmoid was im-
mediately beneath the surface of the
brain. Meningitis developed. Miss
Lanning was 23 years of age and was
the daughter of Mr. and Mrs. John W.
Lanning of Dresden.

RAILWAY MATTERS

BUDGET OF LOCAL AND GENERAL NEWS OF THE DAY.

Jurisdiction of E. T. White Extended. Engine Rolls Down Bank—Engine Movements—Personals.

Official circulars have been received announcing that the jurisdiction of E. T. White, superintendent of motive power, with headquarters at Mt. Clare, Baltimore, has been extended to include the Pittsburgh grand division. His new territory is that formerly under the charge of A. Kearney, now assistant superintendent of motive power of the Norfolk & Western.

Engine Rolls Down a Bank.
Shawnee, O., May 8.—Zanesville and Western engine No. 680, while backing through a big cut east of town Sunday evening with a passenger train, became derailed and rolled down a very steep embankment. Engineer Art Rambo and Fireman George Burk came out from the debris practically unhurt having a most miraculous escape. The engine was a total wreck.

Engine Turns Upside Down.
Houston, Tex., May 8.—A Galveston, Houston and Northern passenger train coming from Galveston left the track at a curve near Harrisburg, the engine turning upside down and taking all the coaches off. Engineer Frank Cox was burned to death under his engine. Fireman Conway is missing, and it is believed that he also was burned. So far as can be learned none of the passengers was killed, but a number of them were injured and were brought to this city on another train. The coaches were wrecked and caught fire, the train being nearly destroyed. A spreading rail caused the wreck.

Immigrants Through Newark.
Two immigrant trains passed through Newark Saturday en route for the southwest. Both trains contained several hundred immigrants. It has been estimated that over 10,000 have passed through the city since March 1. The number passed over the B. & O. road alone is unprecedented.

Local Railway Notes.
Engine No. 143 from the Cleveland division and No. 2246 from the Wheeling division have been transferred to the Newark division for repairs at the shops.

Engines 1297 and 1413 were received Saturday from the Wheeling division for local service.

Engines 948 and 1568 have been shipped for heavy repairs. The latter engine comes from the Cincinnati division.

Engine 2980 from the C. N. & W. division has been received at the local shops for heavy repairs.

Engines 508, 2342 and 148 have been transferred to Wheeling from the Newark division.

Engine No. 2200 was transferred on Saturday from Wheeling to the Newark division for road service.

Brakemen C. E. Ryan, M. J. Davis, H. E. Wilson and D. E. Woolard have reported for duty.

Brakeman O. H. Curtis has been granted a leave of absence indefinitely on account of sickness in his family.

Conductor Henry Connors has reported for duty.

Conductor A. T. Irwin has been marked up for duty.

C. T. Moran, an employee of the roundhouse has resigned his position.

Messrs. M. Metcalf, L. Dehl and W. Metcalf, employees of the B. & O. roundhouse, resigned their positions Saturday.

W. S. Johnson has been transferred from the transportation department to the mechanical department.

W. J. Wiggington was transferred Saturday from the mechanical department to the department of transportation.

Clerk Mikesell of the B. & O. scale house has resumed his duties after a week's absence on account of sickness.

Better Pension Pedagogues.

Newark, N. J., May 8.—Dr. Henry Hopkins, president of Williams college, in an address at the nineteenth semi-annual meeting of the New Jersey High School Teachers' Association

NOTICE TO UNDERTAKERS.

Sealed proposals will be received by the Trustees of Newark Township for the burial of the poor of said Township, where township aid is required. Bids should be for the furnishing of coffins and robes, box for coffin and use of a hearse.

Bids will be received by the Township Clerk until Monday, June 5, 1905, 7:30 p.m. The contract to be let for one year. The Trustees reserve the right to reject any or all bids.

5-1-M-Th St JOHN E. COURTNEY, Township Clerk.

NOTICE TO PHYSICIANS.

Sealed proposals for Medical Attendance upon the sick poor of Newark Township, will be received by the Township Trustees of said Township until

MONDAY, JUNE 5, 1905, 7:30 P. M. Such proposals must be for personal attendance and the furnishing of all necessary surgical operations and attend all necessary cases of Obstetrics and to examine all children for admission to the Children's Home, which may be ordered or required by the Trustees, or any one of the said Trustees. Said contract to be for one year.

The Trustees reserve the right to reject any or all bids.

5-1-M-Th St JOHN E. COURTNEY, Township Clerk.

Music.

Offering Music Benediction.

Mrs. Alice Collum will speak at Et- na the evening of the 11th. All are cordially invited.

IN THE COURTS

MRS. EMORY DUNSON GRANTED A DIVORCE MONDAY.

Case of Owens vs. Burt and Reid on Trial in Common Pleas—Court House Pickups.

In the Probate court on Monday Bcr- nice Dunson was granted a decree of divorce from her husband, Emory alias "Ella" Dunson, on the grounds that her husband is a convict, confined in the Ohio penitentiary. The parties are colored and the plaintiff was restored to her maiden name of Cunningham.

In Common Pleas.

The court and jury were engaged Monday in the trial of the case of C. S. Owens vs. E. M. Burt and Noah W. Reid. The plaintiff seeks to recover from the defendant a sum of money connected with the sale by defendants to plaintiff of a certain interest in a patent for the manufacture of cement fence posts. Swartz, Kibler & Kibler; Smythe & Smythe.

Court Notes.

A transcript from the office of Jus- tice of the Peace Lee S. Lake in the case of Chas. Hurlbath vs. Mary A. Foster and Chas. A. Foster, has been filed in the Common Pleas court.

J. J. Slick and others, executors of the estate of Philip A. Slick, deceased, has filed his first and final account.

George B. Havens, administrator of the estate of Joseph Severn, deceased, has filed his eleventh account.

Waived Examination.

H. N. Hildenbrand waived examina- tion before Squire Lake Monday after- noon and was bound over to Common Pleas court on a charge of violating the Sunday liquor laws of this city.

Court Notes.

Alonzo Beem, administrator of the estate of F. J. Geisick, has filed his final account.

Robert E. Moran, administrator of the estate of Sarah J. Wolcott, de- ceased, has filed his first and final ac- count.

The will of Lucretia Standford, de- ceased, has been admitted to probate.

Real Estate Transfers.

Nina Green to The Newark Real Es- tate and Improvement Co., inlot 1810, in Newark, \$1 and exchange of prop- erty.

The Newark Real Estate and Im- provement Co. to Nina A. Green and Jennie M. Green, inlot 3205 in Newark, \$3500.

C. K. Warner Jr. and wife to Mar- garet M. Warner, real estate in Wash- ington township, \$6,000.

Margaret Koch and William Koch to David A. Cletner and Dollie V. Cletner, 13.75 acres in Union township, \$1,100.

Marriage Licenses.

Lewis Snyder, Newark; Maggie Nye, Newark.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil—Monarch over pain.

Buckeye Lake Park opens May 14.

Owls are not really wise, and the reason that they seem so is because they never move their eyes. This they cannot do, as their eyeballs are fixed immovably in the sockets.

The money sent by former citizens of Austria-Hungary, who have emi- grated to the United States, to their relatives at home amounted to be- tween \$40,000,000 and \$45,000,000 dur- ing the year 1904.

Official figures show that about 100 lives were lost in making the Simplon tunnel.

"You Can Fool

part of the people all of the time, and all the people part of the time, but you can't fool all the people all of the time."—LINCOLN.

This is even truer today than when it was spoken. Applying it to AMHERST means that there is no fooling the people here--it would be impossible to do so if we would.

They can see for themselves the perman- ent improvements we have put on the plat- cement walks, graded streets, shade trees, etc. They can also see for themselves the way this neighborhood is building up with a good class of houses, and that property is cer- tain to increase rapidly in value.

We could not have sold the large number of lots that we have, if the people had not convinced themselves that AMHERST is an ideal home-site, and each lot a money-maker.

This being true when only a few lots were sold, it surely is much more so now that so many lots have been snapped up and building commenced.

We have as good lots left as when we started to sell--ranging in price from \$200 up.

Five dollars makes the first payment on any lot--\$1 to \$2.50 per week pays for it.

You pay no interest for one year, then 6 per cent on the unpaid balance. We pay all taxes until you receive your deed. In event of your death, your heirs receive a free deed for the lot.

Take our advise and visit AMHERST at once. You will always be sorry if you delay in this matter until all the best lots are gone. It won't take more than an hour of your time to come out and see the property, and it will be the most profitable hour you have ever spent.

Come this evening if you can't get away during the day. We are on the grounds until dark and are always glad to show you around.

We refund your round-trip fare.

McCain Realty Company
20 Lansing Block.

PAINFUL PERIODS

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that menstruation is the balance wheel of a woman's life, and while no woman is entirely free from periodic suffering, it is not the plan of nature that women should suffer so severely.

Miss Irene Crosby

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs menstruation of its terrors.

Miss Irene Crosby, of 313 Charlton Street East Savannah, Ga., writes: "Lydia E. Pinkham's Vegetable Compound is a true friend to woman. It has been of great benefit to me, curing me of irregular and painful menstruation when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing.

DON'T BE FOOLED

into thinking that anything else is "just as good as 6-5-4" because nothing else is suitable for use on a Gas Range; nothing else will wear as long on any cooking range; nothing else will dry in 10 minutes; nothing else will cover so much surface, and no other stove preparation is, at the same time, suitable for use on wire window and door screens, stoves and stove pipes.

Nothing else is good for Gas Ranges

MODES IN FROCKS.

Sleeves Growing Smaller—Pointed Bodices Dominate All Gowns. Sleeves are growing smaller—that is, smaller than they have been for the last two or three seasons. A few of the great dressmakers are even trying to launch a sleeve so tight that it recalls the Jersey sleeves of long ago. The leg of mutton size seems to be a good medium style.

The really short sleeve does not end at the elbow, but a few inches either above or below this point. The majority of these sleeves are gathered at the top and again into a band at the elbow, which is of lace or embroidery or finished in a variety of different ways.

The dominating idea of all the smart frocks is the pointed bodice. This pointed effect is not achieved on the best models with a single or belt, but is part of the way itself.

The pointed bodice is built on a fitted and boned lining having high darts. The material is then draped on in some

DRESS OF BLUE VOILE

becoming fashion and folded over the long, sharp point in front, which is edged with a stitched band of the material or a contrasting fabric put on as a facing, but no belt is in evidence.

The gown in the cut is of blue voile embroidered in tiny spots. The full gathered skirt is trimmed with three rows of other venise lace put on in shawl fashion. The bodice is one of the new pointed affairs, the voile being swathed across the figure in a graceful way from a pointed yoke formed of entre deux de lace and mousseline de soie.

JUDIC CHOLLET.

FACTS AND FANCIES.

Lozenge Shaped Trimmings—Fruit Red a Smart Summer Color.

Lozenge shaped trimmings are very swapper made of a contrasting material from that used for the gown. These links are trimmed round with braid or applied with fancy stitches. Between frills at the bottom of a skirt they are effective.

Red—a bright fruit red—is to be seen everywhere in the sartorial kingdom this season. Whole evening gowns are made of it, coaching parasols blossom out in its vivid coloring, and whole hats adorned with dyed lace to match are built from the alluring shade.

A deep blue combined with mauve is a smart contrast.

Very pretty are some of the new hats in leaf green shimmered tulle. They are usually of the large variety and turn

SILVER GREEN STRAW HAT.

absolutely up in front and are trimmed on top with a paradise egret of yellow and brown.

Broadcloth is applied on many of the smart voile gowns, the cloth in turn being covered with a design in lace.

A new rendering of a familiar material is called undulated voile. It is accomplished by a wonderful mesh done in a single color, with the thread woven in dots on a lace background. Then there is a radium voile, which is a mingling of blue, green and violet waven in such a way that the colors blend to a single shade that darkens in the hollow of the folds.

The summer hat shown in the picture is of silver green straw. The pretty upturned brim is lined with mousseline de soie of the same shade. The green velvet has a band of deep velvet crown, which throws into relief the wreath of shaded roses.

JUDIC CHOLLET.

How British Cities Manage Public Utilities

The Secret of the Success of Municipal Ownership Lies In the Unimpeachable Honesty and Civic Zeal of City Officials

By FREDERICK UPHAM ADAMS

(Copyright, 1904, by Frederick Upham Adams)

XII.

CORRUPTION is made by those who for various reasons are opposed to public ownership that elected officials cannot be expected to possess the detailed technical knowledge and the experience necessary to the proper administration of such complex and diversified enterprises as street railways, gas works, electric lighting and power plants, the erection and supervision of dwellings and cottages and the numerous other undertakings assumed or in contemplation by the municipalities of Great Britain. Next to the fear of offering added opportunity for official plunder this is the more quoted argument made against the system by those who discuss and write of it in the United States.

Such a plea is rarely made in England and never in Scotland even by those who have most reason to call a halt on any extension of the field of public ownership. I talk with scores of business men and large property owners, and it is only the simple truth to state that without exception these men asserted that no such charge was even entertained by the responsible element of the community.

It is difficult for an American to comprehend the possibility of a municipal legislative and executive body actuated solely by an intelligent desire to so administer affairs as to safeguard and promote the common interests of citizens and taxpayers.

The British taxpayer selects his alderman or councillor with the same care and with the same object in view that actuates him when he has a vote for the choice of directors in a private corporation. He looks for a man who possesses judgment, ability and unimpeachable integrity. He does not demand a man who necessarily has an exact technical mastery of all of the details pertaining to the undertakings he will aid in supervising. Neither does he insist that the director of a railroad in which he is a stockholder shall be able to regulate the executive work of the general manager of the system.

An Englishman seldom seeks higher honor than an election as alderman in the town or city of his birth. As a stepping stone to this great distinction he must first serve as councillor, and one must stand high in a parish before he may hope to be chosen councillor. From their number the councillors elect one-third of their members to the exalted office of alderman, and if an alderman lives long enough he is certain to become mayor or lord mayor of his town or city.

Not until a man has acquired a competence of this world's goods does he aspire to civic honors in Great Britain. The man who at the age of forty-five has won a modest fortune must hold himself in readiness to retire at the call of his neighbors or to surrender a large share of his time to the service of his community. There are scores of official positions he may be called on to fill, but in none of them will he receive one penny of salary, nor need he expect any material benefit or business prestige from the holding of such an office.

Mayors, aldermen, councillors, trustees and other elective officials in Great Britain serve absolutely without pay. The majority of these men devote a large share of their time to the cities which have thus honored them. They enter into this executive work with as much or more enthusiasm as was formerly displayed in the amassing of private fortunes. They take a pride and delight in fostering the details pertaining to the committees on which they are placed and gradually develop until they are capable of taking charge of any branch of the municipal service.

I could not witness a session of the city council of Manchester, which is of a type common in Great Britain. The members of this distinguished assembly are in fact as well as in name "the selectmen" of their city. They are not placed in these positions of honor because of a purchased popularity, with groups of partisan ward leaders; they do not owe their elections to nominations dictated by corporations in need of their services. They are the representatives of their city.

When they meet the galleries are not filled with a horde of office-seekers. No lobby links on their flank. The papers which record the proceedings do not flame with headlines or bristle with editorials denouncing the "latest aldermanic steal."

There are men in the Manchester city council whose heads are white from forty or more years spent in unpaid and unselfish service to the city of their birth or adoption. The dean of the council is Alderman King, who was elected councillor in 1856 and made alderman eleven years later. He has served as lord mayor, and in two years from now he will celebrate the completion of a half century of official life. The average time served as councillors by the twenty-six men who now are aldermen is eleven years. In that length of time the average man of intelligence should become well acquainted with the duties of his position. When an alderman resigns or dies a councillor is

raised to his place and a new one elected. There are twenty-six wards, and each one has three councillors and an alderman, making a legislative body of 104 members. Elections for councillors are held once in three years, but it is seldom that a man is opposed who has shown himself a capable representative. The changes are so slight that the council is to all intents and purposes a permanent assembly.

The scope of the work relegated to the council is faintly indicated by the titles of the standing committees, which are as follows: Art, railway, baths and washhouses, cleaning, electricity, finance, gas, improvements and buildings, markets, parks and cemeteries, paving, sewerage and highways, public free library, rivers, sanitary, town hall, tramways, police and waterworks. There are also special committees on technical instruction, education, allocation of gas pipes, collection of rents, electrolytic action upon pipes and mains, Manchester Royal Infirmary, Manchester ship canal, telephones and ventilation of sewers.

Each of the standing committees has from three to twelve subcommittees, the vast work of the council being thus divided among the 194 members, each one being held responsible for the faithful performance of one or more specific duties. The plan in its entirety is in almost every particular superior to the prevailing organization of kindred bodies in the United States. I do not believe that there is an elective body in this country which can compare with the city council of Manchester in the matter of organization and in executive capacity. The plain truth of the matter is that, compared with Manchester and Glasgow, our American cities are the most ineffectual in the science and practice of municipal government.

I had an interesting talk with our American consul in one of the larger cities of Great Britain. Our conversation was confidential, and his name and station are not material.

"What is the secret of the success of municipal ownership in this city?" I asked.

"The unimpeachable honesty and civic zeal of the members of the city council and back of them an honest and zealous body of electors" was his unhesitating response. "That is all that is secret or mysterious about it. So far as a system of checks or of book-keeping is concerned there is nothing to prevent the officials from stealing the city blind. Any of the cliques in our great cities would loot this town and drive it into bankruptcy in a year. It would be like handing the keys of a safe to a burglar and promising him immunity from arrest. But the citizens of this place elect men whom it is not necessary to watch. In half a century suspicion has never been directed against a member of this city council. Public ownership is a success here, but that does not imply that the conditions are entirely different."

"By which you mean that the standard of morality and of civic consciousness is higher here than in the United States?" I ventured.

"You may draw your own conclusions," he said. "Most of your readers will not believe my statement that there is such an institution as an honest and patriotic city council, and never having seen one they are not to be blamed for such disbelief."

From this gentleman and from others I learned that with the increase in the responsibilities assumed by the various cities there has occurred a corresponding change in the personnel of the municipal councils. The acquiring of street railways, gas works, electric lighting and power plants and the erection of dwellings for the working classes have caused the electors to seek as councillors men whose life work and business interests have been along the same lines. Veterans are filled with architects, manufacturers, mechanical engineers and men familiar with the enterprises in which the city has invested millions of pounds.

The statement is repeatedly been made in the United States by certain writers that those who have the direct management of these municipal enterprises serve without pay. This is not true. The aldermen and councillors as well as the mayor and other officials do not receive a penny in compensation for their services, and their duties demand a large sacrifice of their time, but the general managers and superintendents of tramways, gas plants and other undertakings are not the same or more paid than would be awarded to them were they employed for private rather than public corporations. The council committees select these men, and they search the world for the most capable experts and executives at the command of salaries. Not the slightest preference is given to local ability. Selections are made on the same principle which guides the board of directors in search of a manager who is capable of increasing the efficiency of a plant and of turning out the revenues. The active heads of the great reproductive manufacturing departments in Great Britain receive from \$5,000 to \$15,000 a year. No cities have outbid the private companies in the quest for executive and engineering talent.

WHAT IS WORN.

Louis Dinner Jacket—Popularity of English Eyelet Embroidery.

Very handsome are the Louis dinner coats made of broadened silk and worn with lace shirts.

White muslin and velvet skirts simply made are smart to wear with white lingerie and silk blouses.

Silk and wool chafers is with us again this season in the softest and most attractive colors, and gray plaid gingham have led for the predominant influence.

Everything in the way of embroidery is shipped in little holes in imitation of

BLACK CHIP HAT.

English eyelet work. Lace and embroidery boleros are as much in favor as ever.

Among the new ribbons is a wide cream satin with deep purple violets scattered over it. Handsome boleros are important adjuncts of the spring costume.

The supplest waist is a boon to the home dressmaker because it is so easily put together.

The backs of the new hats are built high on bandeaux and covered with masses of ribbon or flowers.

On many of the stunning millinery models shaded ribbon which blends the colors of the straw and flowers in one is a prominent feature.

Little round crowns are seen on summer hats, and fresh and "dead" roses are impartially used on these creations. The hat pictured is of the black chip turned over in envelope fashion at the back and filled in with a large bow of leaf green velvet ribbon. Around the crown is a spray of pale tea roses and at one side a clon of deep red jasmines.

JUDIC CHOLLET.

THE SUMMER WARDROBE.

Lace Trimmed Slips of Colored Silk. Jaunty Silk Wraps For Summer.

Dainty little lace trimmed slips of colored silk are to be had in the shops to wear under this summer gowns. The lawn or organdie slip elaborately adorned with lace and ribbon is even sweeter and more expensive.

The jauntiest kind of little taffeta and Burgham silk wraps are made

WHITE CHINA SILK BLOUSE.

up in picturesque style, shirred, corded and plaited into becoming shapeliness.

The half length Eton coat both in white and colors will be very much in evidence made in plain tailor fashion. Some of the new colored linen coats have collars, cuffs and belt of heavy white linen and fasten with large pearl buttons.

For 200 coats in half and three quarter lengths will be smart for motor wear.

Laces of every imaginable shade are used on hats, and many charming effects are produced with the green variety.

A pretty large waist of the "baby" style, tapers in the back and has a little round waist of lace, with deep cuffs at the top.

Floral silk blouses are used on the sleekest white gowns and often form the main body of the dress.

A number of the daintiest white frocks are crossed by lines of black, forming a fine check.

The waist in the cut is of white china silk. It is a very simple little design, being laid in groups of tucks under a yoke of heavy lace. A line of yellow cord goes in a bowing touch at the top of the collar. Another piece of the velvet is under the lace insertion that bands the elbow sleeve.

SWEETHEART

Embraces Him Warmly at the Depot and He Accuses Her of Stealing His Hat.

Lexington, Ky., May 8.—James Dutton was sworn out a warrant here charging Lizzie Sheppard with grand larceny. Dutton says he had been calling on the girl, and she had gone to the depot to bid him good-bye on his way to St. Louis, Mo. He had gone for several months. At the depot he says, his sweetheart, embraced him. He thought it a mark of affection, and a few minutes later he missed his hat. He says he had \$90 in bills in his vest pocket with which to pay for transportation of a number of men to the Virginia town, where they were going to work in the mines. He had no money left to pay for the transportation of the men and the trip was postponed.

To accommodate this who are partial to the use of atomizers in applying liquids under the nasal passages, for nasal troubles, the proprietor, prepare a Liquid Cream Atomizer. Price in England, the spraying tube is 75 cents, in America, 80 cents. The liquid in bottles the medicinal properties of the cold preparation. Cream Atomizer is quickly absorbed by the membrane and does not dry up the secretion. It changes them to natural and healthy character. Ely, Druggist, 6 Warren St., N. Y.

OHIO FEDERATION

Women's Clubs Will Hold Their Annual Meeting in Zanesville Next October—Invitation Accepted.

The annual convention of the Ohio Federation of Women's clubs, will be held in Zanesville in October. This was unanimously decided at a meeting of the executive board held in Columbus Wednesday.

Mrs. Edward Buchwalter of Springfield, president of the state federation, announced some time ago that if an invitation were extended to meet in Zanesville the federation would accept it. Accordingly club women of the City immediately became active in making it possible to have the federation. The committee which extend of the invitation was composed of the following ladies: Mrs. James O. Cannon, Miss Sophia Adams, Miss Pauline Cannon, Mrs. W. T. Maxwell, Mrs. R. L. Quessner, Mrs. McPherson, Mrs. H. T. Sutton and Mrs. Elizabeth Ledy.

Although no definite plans have been made as yet the sessions will probably be held in the First Presbyterian church in Zanesville.

A meeting of the officers of the All Around Club, the Amateur Club, Knickerbocker Club, Terrace Club and the Tuesday evening club of Zanesville will be held on and plans will be made for the entertainment of the federation.

For 200 coats in half and three quarter lengths will be smart for motor wear.

Laces of every imaginable shade are used on hats, and many charming effects are produced with the green variety.

A pretty large waist of the "baby" style, tapers in the back and has a little round waist of lace, with deep cuffs at the top.

CUTTING TIMBER

L. C. Huffman With Force of Newark Men Leaves for West Virginia—790 Acre Tract.

L. C. Huffman of Piquetteburg, of the firm of Huffman & Shadle of Duzlos, W. Va., has left for the latter place to assist in the supervision of the cutting of a large amount of timber. He took 10 workmen from Newark with him.

They will not return home until October.

Seven hundred and ninety acres of timber consisting of hemlock, spruce and pine, estimated to contain 11,000,000 feet, will be cut. The timber is situated in Tucker and Randolph counties, W. Va. The timber is shipped to Philadelphia and Williamsport, Pa., and Baltimore, Md.

Warning is given to saloon keepers and others selling intoxicating liquors to Mr. J. C. (Bud) Stinger. (Signed) MRS. J. C. STINGER.

EX-CLERK LARASON

TALKS OF REPORT MADE BY THE STATE BUREAU.

Unauthorized Fees Caused by Following Practices of Office Through Willful Disregard.

As time passes and the subject becomes more thoroughly investigated and understood, it becomes more evident that the report filed by the bureau of public inspection was largely padded to suit the desire of the bureau. For instance, the state treasurer, Mr. Sage, in speaking of the money voluntarily returned to the county treasury by Clerk Larson when he had become convinced of the doubtful legality, says in his report:

"This is evidenced that the unauthorized fees drawn by Clerk Larson are largely caused by following practices of the office and old cost bills, and not through any willful disregard of the statutes."

When seen by an Advocate reporter Mr. Larson said: "There have been from time to time new statutes enacted imposing additional work upon the clerk without making any special provisions for compensating him, and cost bills sent out by publishing houses have classified this additional work under items of similar or like work performed, as doubtless the legislature intended, and to receive pay for such work has been considered legal and just. In fact, the laws governing many cases are so complex that different attorneys construe them differently."

"After the subject of excessive fees was raised, I presented the subject with the cost bills and other matters in question to ex-Common Pleas Judge John David Jones, with the request that he examine the items in controversy carefully and decide the matter just as he would if he were on the bench, as I did not want a single cent that did not justly belong to me. It was not a question whether the work had been performed or not, but whether the work should be performed gratuitously or not. Acting under the advice of Judge Jones, I immediately returned all fees where there was any shadow of doubt, regardless of whether my predecessors refunded any or not."

"There are possibly five or six hundred dollars charged up in said report against me, moneys that were deposited to secure costs &c., that were turned over to my successor and legally receipted therefor. Such moneys belong to contestant litigants and not to the county. If from any oversight a balance should be overlooked, the matter will be noticed when the case is finally settled."

J. WALDO TAYLOR

Former Newark Man is Now Vice President of Land Company at Washington, D. C.

Mr. J. Waldo Taylor, formerly of this city, a nephew of Judge Taylor, is now vice president of The Maryland Land and Improvement company with offices at 1301 F. street, N.W., Washington, D. C.

Mr. Taylor lived in northern Ohio for some time after leaving Newark, but for several years he has made Washington his home. His company has recently acquired a tract of 180 acres of desirable suburban property which will be developed and put in the market at once. In a letter to a Newark friend Mr. Taylor says that a small block of the company's stock is now open to the public for subscription at par.

ORGAN GRINDER

Is Able to Buy an \$80,000 Tenement in New York City—Must be a Paying Business.

New York, May 8.—The grinding of hand organs must pay pretty well in New York. Recently a man who has been twisting the handle of a wheeler for 25 years bought a tenement house in Mulberry Bend for \$50,000. He was an Italian, and had lived in Baxter street all that time. He goes out with the organ no more, devoting himself to the more congenial task of collecting rents.

Most of the hand-organ grinders in New York live in Baxter street and they are largely Genoese, particularly the women. There are generally two persons to each organ, occasionally one or three. The organ, big or little, cost \$2 a day to rent. The smallest organs, those carried on the back, cost not less than \$200; the larger ones, which are far more numerous, cost more in proportion. Therefore one may set it down that every organ he sees is earning \$2 a day, or the interest on an invested capital of \$200, sometimes \$400 or \$500.

ENGAGEMENT

OF MISS BROWN RESULTED FROM PUBLICATION OF "AD."

So Says Miss Florence Brown Sister of Bride-elect—Wedding Date Not Known Definitely.

Last Wednesday the Advocate announced the engagement of Miss Della Brown, No. 8 Wheeling avenue, in Zanesville, to Mr. John H. Reitemeier, of Logansport, Ind., and in this connection published a report that the engagement grew out of an "ad" in a matrimonial journal. When this report reached the Advocate, the story was wired to the paper's correspondent at Zanesville, and a reporter visited Miss Brown at the home of her parents, Mr. and Mrs. J. R. Brown, on Wheeling avenue. The bride-elect laughed at the story of her romantic engagement, said that she had spent four years in Indiana and that while there she had met Mr. Reitemeier and that her engagement came about in the usual way.

Miss Brown's assertion seemed to settle the matter, but now Miss Florence Brown, her sister, who was in Newark during the afternoon, declares that Mr. Reitemeier and Miss Della did become acquainted through a matrimonial paper, Mr. Reitemeier having answered an "ad" inserted by Miss Brown under the name of "Anna."

Miss Brown says that her sister never met Mr. Reitemeier until their engagement was arranged. She says that the groom to be is a widower about 40 years of age and that Miss Brown is 27. The banns have been published in St. Thomas church at Zanesville, but the date of the wedding is not known.

Mr. Reitemeier is a popular traveling salesman of Logansport, Ind., and Miss Brown is a very charming young woman of the Clay City.

CHAPLAIN NAVE

Methodist Ministers of Cincinnati Commend Former Pastor of First Church, This City.

The Cincinnati Enquirer prints the following:

Chaplain O. J. Nave who has retired from active service, made his farewell address to the Methodist ministers yesterday. He asserted during his talk that the morals of the army at the present time are much better than formerly. Resolutions of respect and appreciation of Dr. Nave's military and ministerial record were passed. Chaplain Nave was formerly a Methodist pastor of this city and was appointed chaplain in the army through the efforts of the late T. G. Newman formerly editor of the Courier.

WOMEN'S CLUBS

Are Defended by Mrs. Robert J. Burdette Who Makes Reply to ex-President Grover Cleveland.

"Women's clubs change the humdrum of domestic life into science. I can not see the force of Mr. Cleveland's objections to clubs on the ground that they make a woman dissatisfied with the humdrum of home life. Women ought to be dissatisfied with humdrum. They ought to seek new methods of doing their domestic duties, as men seek new business methods."

This was the reply of Mrs. Robert J. Burdette of Pasadena, Cal., formerly vice president of the National Federation of Women's Clubs, when asked for her opinion of ex-President Cleveland's recent attack. Mrs. Burdette came to Chicago on Thursday to consult with an architect concerning the plans for the new Baptist temple which her husband is building in Los Angeles.

Mrs. Burdette stated that she had not read Mr. Cleveland's article and consequently was not in a position to express an opinion on it, but when told of some of the features she made the statement already quoted.

"Six million dollars are lost every year in this country through bad cooking," she continued. "I mean, of course, wasteful cooking. I am afraid Mr. Cleveland did not discriminate between whist clubs and other women's clubs. I have always made it a principal not to permit my club duties to interfere with my duty to assist my husband in his work and for this reason I refused the presidency of the national federation last year. I wanted to be free to help him in his work as pastor of the Temple Baptist church. He preached to 2,200 persons last Sunday and plans are now being made for the erection of a new temple at a cost of \$500,000. It is in connection with that work that I am in Chicago."

Shute the Shutes at Buckeye Lake Park May 14.

Ether and chloroform, so useful in sending men to sleep, have the very opposite effect on plants, which are stimulated to the greatest possible activity by these drugs. In Denmark and Germany advantage has been taken of this fact to force flowers in rooms and glasshouses and to make them bloom out of season. The results are said to be marvelous.

Berlin has about 300 miles of paved streets. The total labor cost of street cleaning, last year, was \$529,000.
